INTERNSHIPS

Native Android Developer Intern

Echo Analytics, France – Remote from Chennai, India — June 2025 – October 2025

- Engineered a low-latency, battery-efficient tracking system by migrating React Native app to native Kotlin, reducing drain by 40%
- Integrated Roam SDK for reliable background location updates in doze/kill states
- Displayed 300+ recent location points on Google Maps and implemented date-based tracking history.
- Enabled CSV export of Room DB data and boot-resilient tracking with Boot Receiver & Foreground Service
- Collaborated with team members, debugged production issues, and delivered features within project deadlines.

Web Developer Intern

Kaashiv Infotech, Chennai — December 2023 – January 2024

- Assisted in the development and maintenance of websites using HTML, CSS, and JavaScript.
- Collaborated with the design team to implement responsive web designs.
- Integrated RESTful APIs to enhance website functionality.
- Participated in code reviews and debugging to ensure high-quality code.

PROJECTS

Landlord Service and Rent Management App (Rent Sync)

Personal Project — 2025

- Engineered a landlord rental management app using Flutter, Dart, and Firebase for property, tenant, and service request management.
- Implemented Firebase Authentication and Cloud Fire Store for secure login, real-time data synchronization, and multi-user support.
- Architected the application using MVVM architecture with modular code organization for scalability and maintainability.
- Developed reusable UI components and CRUD functionalities, ensuring responsive and consistent user experience.

Café Radiance – Coffee Shop Website

Final year college project — 2024

- Built a responsive coffee shop website using HTML, CSS, JavaScript, PHP, and MySQL, featuring online ordering, table reservations, and an admin dashboard for business management.
- Developed secure user authentication, integrated a MySQL database for managing users, orders, and reservations, and implemented CRUD operations for efficient data management.
- Designed a modular web application with responsive UI using Bootstrap, and implemented backend functionality in PHP following database-driven web development practices.

TRAINING AND CERTIFICATION

Flutter App Development Course (Jul 2024- Jan 2025)

Greens Technologies (Chennai, India)

- Completed a Flutter development course covering Dart, state management, REST API integration, Firebase, and cross-platform UI/UX development.
